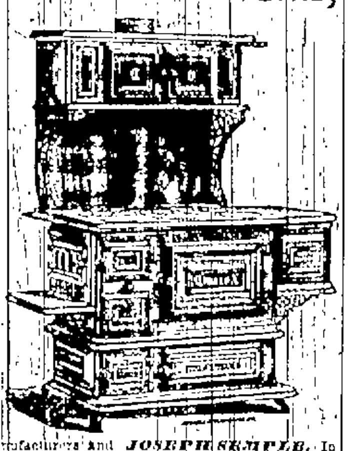
SOMETHING NEW.

NEW CLARION RANGE,

FOR WOOD OR COAL.

With Glass Oven Door.



We are now manufacturing this splendid and justly popular Cooking Range with a plate of thick French plate glass, 8 by 14 inches, inserted into the oven door. This improvement is valuable and can be best appreciated by housekeepers. All articles can be seen while in process of baking or roasting, without opening the oven door, thereby preventing all odors from escaping and all kinds of pastry and cake from falling, and insuring a perfect success in roasting meat or poultry. The glass is the best French plate and capable of withstanding intense heat, while no smoke or steam can obstruct the view from the oven. The glass is in a frame which is attached to the door, and can be removed without danger of breaking, or replaced with a Cast Iron Panel and Nickle Name Plate, which is furnished with each Range with Glass Door. Many thousands of these ranges are in use. It is the smoothest, best made and most economical and durable Range ever sold in any State. Please call and examine it before purchasing.

WOOD, BISHOP & CO.

These Ranges are for sale in Bangor by the manufacturers and *JOSEPH SEMPLE.* In Brewer by *HELLEN & SPARKS* and by all first class dealers throughout our State.

STATE NEWS.

Androscoggin.

The *Journal* says: R. C. Pingree & Co., have the contract to saw and furnish the spruce blocks for the new Main St. bridge pavement. Doctor Moron[illegible] says that the pavement will require 50,000 feet of lumber, and about 600,000 blocks in number. Being asked why the old bridge pavement was so unevenly worn, being very smooth in some places and in very bad shape in others, he said that if the bridge had been swept twice a week it would not have worn so. Dirt, he says, has a tendency to accumulate in irregular patches. When a patch of dirt of this kind got on the bridge, the grinding of the wheels over it wore hollows in the pavement. When the bridge was cleaned, occasionally, these hollows would be left, and filled with dirt again. This process was repeated continuously, until a bad hole wore in the bridge, in this way. The doctor says the moral is: "If you want the bridge pavement to wear indefinitely, keep it clean." Broad St. bridge is now having the biggest rush of travel it ever knew.

Cumberland.

The *News* says that Alvin G. Morrison's cellar, at Bridgton, was entered, the other night, through a window, and about one hundred pounds of pork were stolen.

The *News* says salmon fishing on the Songo is reported as much poorer than for several years past. The cause is unanimously decided to be owing to the destruction of salmon on their spawning beds during low water last season. Some of the guides and others who have found profitable business in caring for parties who resort there, begin to see that they have helped to kill the goose that laid the golden egg.

Somerset.

The Fairfield *Journal* says that the jam at Carratunk Falls, has been broken up, and gone over the falls, but is badly piled up in the bay below.

The Fairfield *Journal* says that while the afternoon freight train on the Somerset Railroad was passing up the grade about half way between Waterville and Norridgewock, Wednesday afternoon, the engineer discovered an obstacle lying across one of the rails and about forty rods ahead. He immediately shut off steam and whistled on the brakes, thereby stopping the train just in time to prevent a crash. The obstruction was found to be a piece of iron rail, about three feet long. Beside the track were the foot prints of the fiend who placed the obstruction there.

Washington.

The late heavy rains cleared the brooks and streams of every stick of lumber in them. It has been the cleanest drive on St. Croix made for many years.

NEWS AND OTHER ITEMS.

Never put off till to-morrow a laugh that can be laughed to-day.

We never have a good time but that we long for a better one, and generally spoil the second in the attempt to make it better than the first.

Plush draperies are as effective painted in oil as embroidered. A very handsome design for a screen is a dark blue plush decorated with apple blossoms.

A Syracuse woman swallowed an apple seed in March, and in April a darning-needle worked out of her shoulder. It pays to invest your capital in Syracuse.

The State of Iowa has had but ten Governors, and all but two are still alive. They ought to appoint a "Governor's Day" in Iowa, and celebrate it with all the solemnities.

Trout fishermen should regard it as a duty to kill every watersnake seen along the streams, for they are said to destroy more trout than all the rest of their enemies combined.

A soil which produces nothing can rarely be found; it it is not embellished by flowers, fruit or grain, its surface is covered by rocks and thorns. Thus it is with man; if he is not virtuous, he becomes full of vice.—[Bossuet.

Among the new designs for embroidered mantel lambrequins, is one of black satin with wild roses; crimson plush in water lilies; olive cloth with daisies and golden wheat; and bronze satin covered with modern point lace.

"What is the meaning of the word 'tantalizing?'" asked the teacher. "Please marm," spoke up little Johnny Holcomb, "it means a circus procession passing the school-house, and the scholars not allowed to look out."

A New York "dressmaker" seeing a statement that a clergyman prayed for house rent, servant's wages and other necessaries and that the Lord always sent them, asks how many servants the Lord regards as necessary. She says, too, that she prays for work, and the Lord has sent it to her, but if there is a shorter cut she will leave off praying for work and pray for money.

Oblong mirrors are now hung crosswise. They have plain wood frames four inches deep, sloping backward, and are painted in different ways. Snowballs, sprays of golden rod, yellow crocuses, peacock's feathers and boughs, on which perch snowbirds are pretty designs for the frames. Some are covered with bright plush, and on one corner is placed a band of old gold.

Old Uncle Moses went into Levi Schaumburg's store, to buy a silk handkerchief, but was almost paralyzed on learning the price. Levi explained that the high price of silk goods was caused by some disease among the silk worms.

"How much does yer ask for dis heah piece ob tape?" ask the old man.

"Ten cents," was the reply.

"Ten cents! Jewhilikins! so de tape has riz too—I spose de cause, ob dat am, becase dat's sumfin de matta wid de tape wums. Dis seems to be gwine to be a mighty tough yeah on wums, anyhow."

Brown paper—the kind used by paper hangers, and upholsterers for packing—of the darkest shade and thickest texture, and gray paper of cool, granite tint, are in much demand abroad for painting upon. It is used for screens, dadoes, panels and cornices. For artistic effect it is very desirable.

Among curious vocations in life very few have been more curious than that of an individual now said to be living, in "pedal case" near Baden. He was boot-stretcher to the late Archduke Franz Carl, the father of the present Emperor of Austria. For many years it was his only duty to wear his Royal master's new boots before they were adopted by the owner; and for the comfort which his self-sacrifice secured for the Archduke, he is now said to be in the enjoyment of a perpetual pension.

Jenkins had just seated himself to read his evening paper before yesterday's supper, when a howl came up from the back yard, where his heir was playing with a crowd of boys. Clearly rang out the voice of the junior Jenkins that if the Jones boy wouldn't be the horse he "wouldn't play." Mr. Jenkins calmly raised the window and announced: "Young man, I don't want to hear any of that Roscoe Conkling business here in Massachusetts. You will be the horse yourself this time, or I shall withdraw your supper and send you to bed. You hear my message?" The deadlock was broken.—[Lowell Citizen.

CABINET UNITY.

[From the Philadelphia North American.]

It is a source of gratification to all well-wishers of the Garfield Administration that all the members of the Cabinet who have yet been subjected to the reportorial pump agree in denying most emphatically all the reports of intrigues, dissensions, and personal or political disagreements between themselves or with the President. The Cabinet is therefore in good working order, and it is because it is so that it has successfully accomplished so much already in the management of the war debt, the reduction of public interest, the abolition of abuses in the postal service, and in other vigorous measures of the administration. Each member of the Cabinet appears to be devoting himself to progressive measures within his own sphere. Mr. Blaine occupies himself chiefly with very important foreign affairs of the Republic, and has infused a new energy and vigorous intelligence into our diplomacy, the results of which are already visible. The recovery in cash of the Fisheries Indemnity, due from the Canadian government, affords a practical illustration of what is meant by a vigorous foreign policy. The Treasury Department has, by its funding operations saved $14,000,000 annually in the burden of interest on the war debt. At the same time it has afforded to the world a striking exhibition of the wonderful improvement in the national credit. The Postal Department has, by its rigid correction of the gross abuses of the Star route mail system, already effected a saving to the public service of $1,000,000 a year, and bids fair to go before Congress at the ensuing session with a much smaller deficiency than the department has presented to the public since the close of the civil war. In the Interior Department the work of the Census Bureau is approaching completion, reforms have been introduced in the Land Office, and the untroubled peace with the Indians has been utilized for stimulating the vigorous progress of measures for Christianizing, civilizing, educating and domesticating the wild tribes of the far west. We rehearse these details for the purpose of saying that such progress would be impossible unless the Cabinet were united and harmonious, and were directed and sustained by the President, since it is obvious enough that the main purpose of the enemies of the Administration in circulating reports of internal dissensions in the Cabinet is so to distract the attention of the members of the Cabinet as to leave them no time whatever for the preparation and enforcement of a distinct policy and of effective action and measures.

The Cotton Exposition

At Atlanta, Georgia.

[Special Correspondence of Whig and Courier.]

Atlanta, the gate city of the South, was a place scarcely heard of before the armies of Sherman fought their way to its front and, after a most remarkable campaign, entered into its possession, only to destroy and evacuate it. Now it is known all over the civilized world, both for its connection with the late civil war, and also for the rapid progress it has made since the return of peace. As seen to-day by the visitor, it is a city of strange anomalies, filled with objects of interest. It is emphatically a city of young men as Chicago was twenty-five years ago, and the stir, buoyancy and heartiness of its people, remind one of that period in the history of the great city of the West. In other things, too, there is a similitude to the Chicago of early days. The place has grown so rapidly, and the people have had so much to do, that many things have been overlooked or put off for a more convenient season. This accounts for the condition of the streets and sidewalks, which, outside of the main thoroughfares, are in a terrible condition. Not in the sense in which those of New York were last Winter and Spring, but bad in that there are few of them through which a light vehicle can pass safely, they are so gullied and torn. In the by-streets, the sidewalks are mere goat paths, where a stranger could not safely walk in the darkness.

But this and other defects will be overcome in time by the go-ahead citizens of Atlanta. Just now they are too busy with their private affairs to have time for any public undertakings, the International Cotton Exposition alone excepted. Of that great enterprise much has already been said in the Northern journals, but nothing that could convey an adequate conception of the details of this grand scheme. Having spent some time here in examining the plans of the Exposition, and the work already done to assure its success, your correspondent proposes to give the readers of the WHIG, such items of information as may help them to understand what great interests are comprised in this the only "World's Fair" of the year.

The idea of holding an Exposition of the cotton industry of the world was conceived by that eminently sagacious citizen of Massachusetts, Edward Atkinson. When he broached it to the cotton men of the South, last winter, they seized upon it eagerly as the very thing needed, to give additional impetus to their industry. Atlanta was selected as the place for holding it, for several reasons. It is in the heart of the cotton belt, it is accessible to all parts of the country, by well-regulated and admirably equipped railway lines, it is a remarkably healthy place, and it has fine hotels, a hospitable people, and a most energetic and ambitious business population.

The site having been determined upon, a stock company was formed under the laws of Georgia for the purpose of putting the plan into execution. The people of Atlanta were peculiarly fortunate, to have in their midst the man above all others, the best qualified to take charge of this work, and when they made H. I. Kimball, Director-General of the Exposition, they insured its success. The President of the company is United States Senator Brown, the Executive Committee is made up of the most wise and substantial business men of this city, and the various executive officers are men selected for their ability. Besides these there are Advisory Committees in Boston, New York, New Orleans, Philadelphia, Baltimore, Cincinnati, and other cities which have taken an active interest in the Exposition.

As already stated, the original idea was confined to cotton and its analogous interests. But very soon the leaders in the movement saw that while cotton was the great staple of the South, it was not the only interest, and that the proposed Exposition ought to be thrown open to every industry, and made an occasion for bringing together the products of all industries, and for displaying as fully as possible the natural wealth that awaited development in the mountains, hillsides and forests of the South. This thought was embodied into the plan, with the unanimous approval of the Executive Committee, and all the arrangements thus far made are in pursuance of this grand idea. The prospectus of the Exposition was finished last month, and the first edition of 20,000 copies has been exhausted by the demand, from all parts of the country. Another will soon be ready, and sent to all proper parties applying for it. Oglethorpe Park, a beautiful location, has been selected for the Exposition. It will be connected with the hotels and depots by both horse and steam car lines. The main building in the form of a Greek cross, is to be 720 feet long and 96 feet wide, with four powerful engines in the center. This will be devoted to the cotton interest. Around it will be grouped other buildings, each 100 feet square, for the different displays. Two of these will be filled with exhibits of coal, native woods, metals, ores, clays and minerals, the collections made by the Southern railway lines, in the regions which they traverse. These displays will convey a better idea of the undeveloped wealth of the South than has ever been given, and will show what immense resources this part of the country has for becoming a great hive of manufacturing industry.

One great purpose of the managers of the Exposition is to bring together such an exhibit of everything useful and beautiful produced in the United States as has not been attempted heretofore. The Southern people are acquiring wealth; they will soon be very heavy buyers of articles of luxury. The change in the labor system has created a necessity for all those small labor-saving appliances which are common in the North, but which are scarcely known in the kitchens and houses of this section. Such Yankee contrivances as egg beaters, raisin seeders, and a thousand other things, that will suggest themselves to every housekeeper, will find a ready market here when once introduced. The Exposition finds places for articles of this class, as well as for steam boilers, cotton gins, power looms and machines of every description. All classes of manufacturers are beginning to see this, and applications for space are pouring in from every quarter. There will be room enough for all who are prompt in applying, but eleventh hour people will be apt to find themselves too late. Heavy machinery must be on the ground between the middle of August and September 1st. Other goods should be here by the middle of that month, as the Exposition will open October 5th.

The arrangements are nearly completed for excursion rates by the various transportation lines both by the seaboard and through the interior. As it is probable that an immense number of New England and Middle States people will attend the Yorktown Centennial, the transportation committee of the Exposition will endeavor to make such terms, that when that celebration is over the visitors there can come on to Atlanta at a very moderate outlay, and with a choice of several routes.

THE STRIFE AT ALBANY.

LATEST PHASES OF THE CONTEST.

Tuthill's Speech Falls Short of the Desired Effect.

[Albany Special to N. Y. Tribune, June 17.]

Ex-Senators Conkling and Platt departed to-day for New York, and ex-Vice President Wheeler arrived from the north. Mr. Wheeler took up quarters at the Delavan House, and was visited by a large number of the members and others. The tone of Mr. Wheeler's talk was eminently conciliatory. The substance of his talk with the many persons who called upon him was that it was evident there could be no election here except by a compromise, and a compromise would have to include the friends of Mr. Conkling as well as those of the Administration. He did not believe it would be a wise policy for the friends of the Administration to select a Stalwart and run up his vote for the short term; it would be much better to run up Administration men, for both terms, and then if the point shall be reached where a compromise could be effected, one of these men could be selected as the Administration's representative. Mr. Wheeler said he would be frank to say, if it came to that, he would insist that Mr. Depew was entitled to the place; he had made the fight here for the Administration and was entitled to the first consideration. Mr. Wheeler said he knew his friends would hardly approve of his realizing his claims in this manner, but he felt that he could not in fairness do otherwise, considering what Mr. Depew had done. Mr. Wheeler is evidently disposed to take a very friendly attitude toward Mr. Depew's supporters.

A Wheeler Senator said to-night that Mr. Wheeler wrote a letter to Albany some time since, in which he urged his friends to vote for Mr. Depew, and that it was this letter which brought them into line. Mr. Wheeler said to-day he should remain here some time, and attend the conferences of the Administration members if he was invited to do so. One result of the establishment of such friendly relations with the Depew men will undoubtedly be an effort to run up Mr. Wheeler's vote for the short term as high as possible. The tone of his talk has evidently created a warm feeling for him personally among some of the Depew members. One of them said to-night "They say this man is cold-blooded; why, I felt like hugging him when I heard him talk this way." One of Mr. Wheeler's remarks was: "Mr. Depew has made an excellent attorney for the Central Road that goes to show that he would make an excellent United States Senator."

It is an interesting fact only known to a few, that the Conkling members secretly appointed a committee similar to the committee appointed by the Administration men. The membership of the committee is secret, and great care has been taken to keep from the public the fact that it has been appointed. It is stated that the committee has intimated a willingness to confer with the Executive Committee of the Administration men, but so far there has been no actual movement toward a conference.

There is a story about town that the District-Attorney of Albany County is to take up the investigation of the bribery case, and that a number of witnesses, including A. D. Barber, have been subpœnaed for Monday. It is also reported that E. D. Phelps, the lobbyist, and one of Barber's assistants, has left town. Both stories come from Conkling sources. It is said that Conkling and Platt will return here Sunday night. General Arthur remains here for the present.

There will be less pairing to-morrow apparently than usual on Saturday, but still enough to make the ballot inconclusive. The Administration leaders have some difficulty in controlling their men. Mr. Butler, of Warren, actually went home yesterday without taking the trouble to arrange a pair.

TUTHILL'S SPEECH RECEIVED WITH LAUGHTER.

On the roll-call for the long term in the joint convention to-day Mr. Tuthill, of Cayuga, asked, as a matter of form, to be excused from voting and addressed a long speech to the Joint Convention, charging Mr. Depew with being the candidate of the corporations, with having been for years their chief lobbyist at Albany, and with having labored to prevent all honest legislation to equalize taxes, to honestly adjust railroad freights, and to give their just rights to interests opposed to railroad monopolies. Mr. Tuthill is a tall, loose-jointed man, apparently about fifty years of age, with straggling gray hair. He is chairman of the State Prisons Committee; has never taken a prominent part in legislation, and has attracted more attention by his vanity than by his intellectual powers. Much, apparently, to his astonishment and chagrin the members of the Legislature persisted in treating his tirade against them merely as a piece of successful buffoonery. They listened to it amid suppressed laughter which broke out into a loud peal, and after bitterly denouncing corporations he closed his speech by voting as he has done steadily heretofore—for Thomas C. Platt, who is associated in the public mind with three or four times as many corporations as Chauncey M. Depew.

A jollification followed the adjournment, which took place immediately afterward. The members crowded around Mr. Tuthill's desk, including many of the best men of the House who, according to Mr. Tuthill, have been corrupted. They shook him vigorously by the hand, slapped him on the back, and congratulated him in terms of mock eulogy, all the while making the Chamber ring with their laughter. This was obviously not the effect he had hoped for. Mr. Tuthill is a serious person, and there is every reason to believe that he expected the legions of Depew to be overthrown by his eloquence. He took these congratulations with a lame sort of a smile, and the look on his face of a man who begins to suspect that perhaps he has done something silly. Wherever the speech is merely read without any explanation of the surrounding circumstances it will be naturally supposed that it was received as seriously as it was made, but this was not the fact. The absurdity of the charges made and the strange presumption of a rather weak-headed and unimportant member of the Legislature in calmly informing the best men of both houses that in effect they were either fools or knaves in supporting Mr. Depew, combined to make Mr. Tuthill's speech, insulting as it was to his fellow Republicans, too ridiculous to be resented. The speech deserves this detailed mention only because there is reason to suspect that it was due to Mr. Conkling's direct inspiration. A Republican living in one of the river counties saw Mr. Conkling and Mr. Tuthill in earnest consultation at a very late hour last night, about 1 o'clock, and prominent members of the Legislature do not hesitate to say that they believe Mr. Conkling suggested or at least approved the speech.

THE CONKLING PHARISEES.

It is in the key, which all his intimate friends and his managers are now using. He's trying to raise a hue and cry of corruption against the Legislature which shall distract the counsels of the members, prolong the session, and help to an adjournment. This is the whole object of the so-called Investigating Committee. It is the object of all the talk of the Conkling managers. They are using every effort to spread abroad the idea that Mr. Conkling is being "crushed" here by corruption, and they tell on the street corners how the price of members has risen, as Mr. Depew's vote went from 25 to 35, and from 35 to 45, and so on. The fact is, as it has been stated in these despatches before, that a large proportion of the ablest and best men in both Houses are voting steadily for Mr. Depew, and that some of the most conspicuously independent and upright supporters he has are men who have come to him recently. One of Mr. Conkling's most intimate friends bravely asserted the other day that every vote Mr. Depew has received over twenty has been bought.

If the roll of changes was examined it would be found that the men who have come to Mr. Depew since he has received twenty votes are, many of them, among the strongest and cleanest men in the Legislature. As it has been stated in these despatches, twenty of the thirty-eight committee chairmen of the Assembly are supporting Mr. Depew for Senator, and one more is absent sick; only eight are supporting Mr. Conkling. If these twenty-one men, including the chairmen of most of the important committees of the Assembly, are such a set of rascals as Mr. Conkling's representatives are now trying to persuade the State they are, Speaker Sharpe ought to explain how he came to put the Legislature of the year in the hands of such men. The same thing is true in the Senate. There are thirty-three committees in that body; twenty-one of these have Depew Senators for chairmen and only ten have Conkling Senators for chairmen. The character of this Legislature is certainly as good as that of any of its predecessors, and facts like these of themselves disprove the silly libels of Mr. Conkling's tools upon the character of a Legislature whose votes he has begged for in vain.

CONKLING MEN DISGUSTED.

It ought to be added, however, that a number of the Conkling men expressed their disgust with the speech as both injudicious and unjust. One of the firmest friends Mr. Conkling has, when asked his opinion of it, simply said: "Dreadful." "Rule or ruin" seems to be the Conkling policy with individuals as with the Republican party. An instance of his revengeful habit has just come to light. Mr. Roberts, Assemblyman from the IIId District of Oneida County, is the only one of the three Assemblymen from Mr. Conkling's county who is voting against him. What was Mr. Conkling's revenge? A subpœna was sent to Utica for the production of Mr. Roberts's bank account since the 10th of May before the so-called Investigating Committee. Citizens of Utica say his character is excellent, and if there has been any suspicion here on the part of anybody that he had been influenced corruptly it has been confined to Mr. Conkling's managers whose minds show an hysterical activity in that direction. It is supposed that they wanted to associate Mr. Roberts' name with the scandal. Well, Mr. Roberts heard of the attempt to get at his bank account, and telegraphed to the bank, ordering that it be made public. It showed just one transaction of $100 since the 10th of May.

Toledo, Ann Arbor

AND

Grand Trunk R'y

First Mortgage 6 Per Cent.

Forty-Year Gold Bonds.

Total Issue - $1,260,000

Interest payable Jan. 1 and July 1, in New York.

PRINCIPAL DUE JAN. 1, 1921.

Issued at rate of $15,000 per Mile.

These Bonds are issued to provide for the extension of the Toledo and Ann Arbor line, to Pontiac, Mich., 38 miles further north, to a connection there with the Grand Trunk Railway, and to afford that Railway and various interested lines an outlet to Toledo. This extension is now nearly completed, and will be open Sept. 1, forming a line of 84 miles from Toledo to Pontiac, on which these bonds are a first mortgage.

THE EARNINGS.

The gross earnings, expenses and net earnings of the Division from Toledo to Ann Arbor, 46 miles, for the first three months were as follows:

	Earnings.	Expenses.	Net.
[illegible]	$11,457	$5,280	$6,177
[illegible]	12,451	[illegible]	[illegible]
[illegible]	13,605	[illegible]	[illegible]

For the last three months [illegible] ings for the year at this [illegible] bonds at $15,000 per mile for 46 [illegible] net earnings [illegible] the interest charges on the whole [illegible] 500 first mortgage bonds, so that without [illegible] the operation of the extension to the interest on the bonds is as [illegible] however, cover an additional [illegible] that will be extremely productive, [illegible] connections secured [illegible] upon the whole line be at once [illegible] the net earnings will be [illegible] the interest charges are only [illegible] believed the earnings will [illegible] ratio.

THE CONNECTIONS.

Seven Railroads centre in Toledo, from [illegible] Ohio. The Toledo, Ann Arbor and [illegible] Railway, running northerly from [illegible] *intersects and connects with nine railroads* north of Toledo.

At Milan, 21 miles from Toledo, connection is *now* made with the Wabash Railroad for Detroit, which route is but *11 miles longer* than the Detroit Air Line. This route *is now used by the Wabash line for a large traffic* between Toledo and Detroit.

At South Lyons, 15 miles north of Ann Arbor, connections will be made *this month* with the Detroit, Lansing and Grand Southern Railroad, the great lumber road of Michigan. This connection *will afford great traffic to Toledo.*

At Wixom, 24 miles north of Ann Arbor, connection will be made with the Flint and Pere Marquette road.

Its completion will give the "Ann Arbor" route the importance of a "*Through Line*" for business that the Grand Trunk, hitherto shut off from that quarter, will be able to reach over it, *via* Toledo, from seven lines of Railway, centering there from the South. The Grand Trunk Road of Canada has long aimed to reach Toledo.

BOTH GENERAL AND LOCAL TRAFFIC.

The Toledo, Ann Arbor and Grand Trunk Railway traverses one of the most fertile and thickly populated portions of Michigan, and will have a local business second to none in the State.

The Ann Arbor Line, by saving distances, will secure a large southeastward traffic, and by its advantages in Toledo, it is assured of a large and profitable northwestward traffic, which insures productive hauls *both ways*, and consequent *large net earnings on gross traffic.*

TERMS OF SUBSCRIPTION.

The undersigned are now ready to receive subscriptions for the Bonds at 102 and accrued interest. Ten per cent of the amount taken will be payable at the time of subscription. Subscribers will have the option, July 1, 1881, of paying in full or in five monthly instalments. The right is reserved to advance the price without notice. MAINE NEWS.

THE SOCIETY SONS OF MAINE.

Guests from the Pine Tree State Sumptuously Entertained;

AND INDUCED TO PROLONG THEIR VISIT.

[Special to the Whig and Courier.]

CHICAGO, June 19. The Maine guests of the Society Sons of Maine, after a sumptuous entertainment by the Society, since Wednesday had prepared to return Saturday. When Potter Palmer, Esq., laid an injunction on them and insisted on their remaining till Tuesday as the special guests of his magnificent hotel (Palmer House), in which they have been assigned most elegant apartments. Mr. Palmer's princely hospitality was extended in so generous and urgent manner that the entire party consented to remain a few days longer in the grandest hotel on the continent. The Maine visitors have received most generous attentions from the citizens of Chicago, especially from Judge Drummond, ex-Minister Washburne, Hon. C. P. Kimball, H. A. Hersey, the brothers Libby and other prominent members of the Society Sons of Maine. An enthusiastic welcome has been everywhere given the venerable ex Vice President Hamlin. The party start Monday afternoon, spend six hours at Niagara Falls and reach [illegible] Wednesday forenoon.

Excursion to Maranocook.

PORTLAND, June 19. To-day Division No. 40, Brotherhood of Locomotive Engineers, entertained the Boston Division with an excursion to Lake Maranocook. The Boston Division reached here shortly before [illegible] and the Lake about twelve; there were five hundred in the party including ladies. There were representatives from the Eastern, Maine Central, Fitchburg, [illegible] New York and New England, Grand Trunk and other roads. The Eastern and Maine Central Companies furnished the trains free. Many prominent [illegible] were of the party. A banquet was served and there was a splendid time enjoyed.

The Strike.

[illegible], June 19. It was supposed that the difficulty between the corporations of this place and the employes was settled yesterday afternoon, for the present at least, but it seems now that such is not to be the case. A very large meeting of the operatives was held this afternoon when it was decided that the back boys and carders should not return to their work, and as the mule spinners cannot work without the back boys the whole of the manufactory is virtually as much at a stand still as ever, unless a sufficient number of experienced back boys can be procured outside of the strikers, as the spinners refuse to work with green hands. The weavers propose to return to their work in the morning, but as they have no material to work upon they will be obliged to come out again. By the course they have taken it would appear that they are not willing to regulate their wages according to the pay of other places.

Dingley Delegates.

FARMINGTON, June 18. The Republican caucus to-day was large and unanimous for ex-Governor Dingley for Congress, for whom seven delegates were elected.

NEW YORK.

A Residence Robbed of $4000 Worth of Plate.

NEW YORK, June 18. The residence of [illegible] Hoyt, at Yonkers, was robbed of $4000 worth of silver plate, yesterday morning, while the family were asleep. [illegible] was a visitor at the time.

A Hard Boy to Abduct.

The boy Frank Hill, who was seized by his father, Charles E. Hill, a few days since, at Syracuse, and carried away from the control of his mother, after escaping from his father's custody on a railroad train in Connecticut, on the 4th inst., has succeeded in making his way back and is again at Syracuse.

Manhattan Elevated Railway.

Attorney-General Ward has decided that the suit of the State against the Manhattan Elevated Railway must proceed, thus denying the application of the stockholders for a suspension of the suit. He states that by the statement of the President of the company, it is insolvent, has been so for more than a year, and under the code the law should be placed in the hands of a receiver. He says the action must proceed where it can be most speedily disposed of, and I hope the defendants will join me in reaching a trial at the earliest moment practicable, and will not embarrass the important and necessary peoples' action with further dilatory proceedings.

Interesting to Oarsmen.

ROCHESTER, June 18. It is authoritatively stated that Hanlan, Hosmer and Trickett have consented to row in a general regatta, the time and place to be hereafter selected, for prizes amounting to $3000, the first to be $1500, second $800, third $500, and the fourth $200. Courtney, Ross, Riley and Smith have been invited to row. The regatta will take place sometime in July and at or near this city.

Death of a Centenarian.

NEW YORK, June 19. Mrs. Catharine [illegible], a native of Long Island, who has been a resident in this city sixty years, died from old age to-day, aged one hundred years and five months.

Sad Drowning Accident.

It is reported that at Pleasant Valley, a short distance up the Hudson, to-night, five persons were drowned by the falling of a steamboat bridge upon which they were waiting for an excursion boat for this city. No particulars yet.

MASSACHUSETTS.

Sporting Matters.

BOSTON, June 19. The Consolation race at Strawberry Hill, to-day, was rowed between Plaisted and Doyle, over the same course as on yesterday, and was easily won by Plaisted in 22 minutes and 35 seconds, leaving Doyle far behind.

HARVARD COLLEGE.

The Baccalaureate Sermon.

BOSTON, June 19. Rev. Andrew Peabody preached his valedictory baccalaureate sermon at Harvard this afternoon, from Hebrew 13, 8. The speaker was willing to concede the physical origin of Jesus, of the spiritual, his conscience told him he was the direct descendant of God. The speaker hoped that the word "Christo" would never be erased from the college seal. The "church" in the seal pictured faith. The church is the main aggressive human force against sin and misery, and if the college is to send forth advocates of righteousness, it will be as representatives of the church, that they will exert their greatest force. In closing the speaker urged upon the graduating class the deep consideration of college matters. For, as it was impressed upon their own minds, so it would be impressed upon the minds of their associates in life.

CONDENSED DESPATCHES.

A St. Louis despatch says: A freight train and construction train collided on the Texas Pacific Railroad near Baird, Texas, yesterday, and T. A. Barns, engineer and O. H. Richardson, fireman, were killed.

THE SENATORIAL QUESTION.

Conkling Says There Will be no Demonstration.

NEW YORK, June 19. Messrs. Conkling, Platt and Grant remained very quiet at the Fifth Avenue Hotel to-day. Conkling said he would probably go to Albany to-morrow night or Monday morning, and said there would be no attempt at a public demonstration in his support in this city. Platt intended to leave for the State Capital to-night. General Grant spent the greater portion of the day in his son's office and then returned to the hotel. He had but few callers.

CONNECTICUT.

The Harvard-Yale Race.

NEW HAVEN, June 19. At a meeting of the Yale University Boat Club this evening, it was voted that it is for the interest of both Yale and Harvard that the race be rowed the day after Commencement as the crowd in attendance will be larger than if held on a day later; that as high tide occurs on Thursday, June 30th, at 12.00, and on Friday, July 1, only half an hour later, therefore any objection to Thursday on account of the tide would apply equally well to Friday; that the Harvard-Yale races are annual fixtures and should not be made subservient to other matches; that as the Harvard challenged Yale before challenging Columbia, the date of the race with Yale should be fixed before the date of the one with Columbia was agreed upon. The other claims of Harvard were answered and it was voted to again ask Harvard to row June 30th, the day following Commencement in both colleges, but if Harvard refused Yale would, out of courtesy to Columbia, as a concession to Harvard, waive the right for one year and row July 1st, provided Harvard will agree to row the day after Commencement for four years to come.

OHIO.

A fearful Storm.

CLEVELAND, June 18. A severe storm swept over a portion of Northern Ohio last night. Trees were uprooted, buildings blown down and unroofed by the wind and considerable damage done by lightning and water. Near Mt. Liberty the railway bridge was partly washed away. Near Wakeman half of Raggles' Grove was felled by the cyclone and several orchards were more or less destroyed. Barns were torn to pieces and horses and cattle killed or injured. The storm track was half a mile wide and its duration one hour.

A Letter from Thomas L. Young to Gen. Grant.

CINCINNATI, June 18. Thos. L. Young, member of Congress from Ohio, writes to Gen. Grant, stating that he (Young) never accused him of being President of a New York bank but did say that Grant was a director of the U. S. National Bank of New York City; and that he (Young) did not say Grant was receiving a salary in connection therewith. In regard to what is reported as having been said by Grant that he (Young) had "lied," and had sought to "belittle" him, Young refers to his love for Grant, his services and endeavors in Grant's behalf, and closes by saying, there is but one man in this great nation, who could ever succeed in "belittling" the great soldier and statesman, of whom our nation is justly proud, and that man is not your humble friend—Thomas L. Young.

WASHINGTON.

Financial.

WASHINGTON, June 18. The Secretary of the Treasury has not yet had an opportunity to examine the registered 5s held for his action, on account of the irregular transaction so as to decide what portion of them may be converted into 3½s. There is quite a large amount of this class of bonds and until the Secretary determines how many can properly be continued at a lower rate, it cannot be stated what amount of registered 5s will be extended. The bonds which have been received in strict accordance with the regulations, exceeded the limit of $250,000,000, fixed for conversion of 5s into 3½s, by from $10,000,000 to $12,000,000. There have been about $3,500,000 of registered 5s converted into 3½s at the London Agency. Two messengers have been sent from here with new bonds, namely: Messrs. J. Stanley Brown and W. W. Utts; the latter started yesterday and was to sail from New York to-day. The amount of coupon 5s which have been presented at the London agency for continuance at a lower rate of interest, according to advices received at the Treasury Department to date, aggregates $14,500,000. This amount added to the $45,500,000 which have been presented for continuance in this country, exclusive of to-day's receipts, leaves a balance of $58,000,000 in coupon 5s to be heard from before the entire amount outstanding, $118,000,000 will be covered. There remain but eleven days, Sundays being excluded, in which the bonds may be extended, before the expiration of the time fixed, namely July 1st, rendering an average daily receipt of more than $3,000,000 necessary.

From information received here it appears a number of banks are collecting the coupon 5s with a view to forwarding them after the large amounts have accumulated. The temporarily increased force of the loan division is still working on the bonds and it will not be reduced until the entire work of the changes in bonds have been completed. The prefect of police endeavored to calm the crowd and sent for the Gendarmes, but before their arrival the deputy mayor, and municipal councillor, in spite of the protests of the prefect, tore down the escutcheon. The crowd afterwards dispersed and the approaches to the club house were occupied by troops.

REGULATE THE SECRETIONS.

In our endeavors to preserve health it is of the utmost importance that we keep the secretory system in perfect condition. The well-known remedy, Kidney-Wort, has special action on the kidneys, liver and bowels. Use it instead of dosing with vile bitters or drastic pills. It is purely vegetable, and is prompt but mild in action. It is prepared in both dry and liquid form and sold by druggists everywhere.—*Reading Eagle.*

UNITARIAN CONCERT. A very large and appreciative congregation assembled at the Unitarian church last evening to listen to the attractive programme arranged for the Sabbath school concert. The church presented a most enchanting appearance, the altar being surrounded and almost hidden from sight by a large collection of beautiful flowers, the arrangement of which was very artistic. It was called a "Bird Concert," and the numerous little songsters, suspended in their cages on both sides of the hall, added their sweet notes to those of the children, until at times the large auditorium seemed filled with music. The exercises consisted of recitations and singing by the school, accompanied by several selections by the choir, and were appropriate to the occasion. The children all acquitted themselves in a most creditable manner. Mr. Bright, the Superintendent, and the Committee who assisted him, are entitled to great credit for their untiring efforts in arranging this concert which was highly enjoyed by both old and young.

UP-RIVER NOTES. Our correspondent "Nopen" writes from Winn: The forward West Branch drives left Winn Village Saturday forenoon at about 9 A. About a quarter of the drivers are Indians. The rear drive is at Ambijegus Lake and perhaps a little below, with about eighteen million, and will probably get to Winn about July 4th. James Smart is with that drive. The East Branch drive is still on Grindstone six or eight miles above Medway and has been there for about a fortnight making very little progress, with quite a prospect of being hung up there.—Yankee Glum performed at Winn, Friday evening, to a large and appreciative audience. He goes to Mattawamkeag to-night, and at Kingman Tuesday evening, thence to Houlton and Presque Isle by July 4th.—The large pile of telegraph poles lying for some time around Winn depot, is being sent off to Boston by George Haynes, who owns the most of them.

Sabbath School Concert at the First M. E. Church.

The Sabbath School connected with the First M. E. Church, M. P. C. Withers, superintendent, held a concert last evening, which was largely attended. The exercises were pleasing, and the musical selections well rendered. The altar was tastefully decorated with flowers furnished by the friends of the school. The order of exercises was as follows: Organ voluntary, by Mrs. Ayer; selection by quartette composed of Mrs. L. A. Torrens, Mrs. E. T. Wasgatt, Messrs. L. A. Torrens and Geo. T. Moody; reading of the Scriptures by the pastor. Rev. Mr. Axtell; selection by quartette; prayer; response by quartette; reading of portions of the Scriptures by the Sabbath School scholars; recitation, "Flowers," by Edith Marsh; recitation, "A Little Child Shall Lead Them," (interspersed with song,) by Mamie Ayer; recitation, "A Little Bird Tells," by Oscar Hasey; recitation, "Little Moments," by Alice Estey; recitation, "God is Seen in Everything," by Bernice Graves; song and chorus, "Bright Jewels," by Gracie Danforth; recitation, "Who is My Maker?" by Julian Pool; reading, by Miss Joss; recitation, "The King's Jewel," by Lillian Arnold; song, "Sunshine," by Annie Wasgatt; recitation, "Old Speckle," by Bertrand Clergue; recitation, "Springtime," by Lida Towle; recitation, "Child's Faith in God," Velma Fletcher; recitation, "Not for Ourselves," by four little misses; recitation, "God Wants the Boys and Girls," by a little boy and girl; "Weather" song, by Bertha Baker; song, by Velma Fletcher; singing by the school; address by the pastor; singing from Gospel Hymns; benediction.

The recitations by the little ones were well rendered, and the exercises made especially attractive by the sweet singing by the quartette, which was indeed very fine.

TOGUS.

Garlanding the Graves.

The beautiful and impressive decoration ceremonies were observed at the Togus National Home last Friday. Fully two thousand strangers were present. The procession numbered 500 men in line. There are now in the cemetery 288 graves.

Col. S. C. Oliver, of Salem, Mass., a disabled soldier and a patriotic gentleman, was the orator of the day. The address was a finished and appropriate production, and was listened to with marked attention. The Colonel began by saying that the cycle of years from 1861 to 1881 was an epoch crowded with more real progress than any other previous century of history. The oration was rather an address to the living than an eulogium of the departed, and in this respect will compare advantageously with the ordinary discourses on such occasions. He took a comprehensive view of the Nation of to-day, cemented together by the blood of those who rushed to the defence of the flag, and fought for the integrity of the Union when traitors sought to disrupt it. The present was prosperous and the future was big with promise. The war had proved that Americans inherited the martial spirit of their sires, and had taught the world to respect and honor the great republic of the West.

A Band concert at the Home closed the exercises. Gen. Tilton and his wife entertained many of the visitors.

BANGOR HIGH SCHOOL.

Graduating Exercises of the Class of '81.

The graduating exercises of the Class of '81, Bangor High School, at City Hall, last Saturday forenoon, were of the deepest interest to the large gathering in attendance. The exercises began promptly at half-past ten, at which hour the old hall was comfortably filled. Fair hands had given to the ancient hall a look of freshness and beauty. Heavy evergreen festoons hung from the ceilings and spanned the space between the galleries; from the centre, where the evergreen festoons crossed each other, hung a huge basket bouquet surmounted by flowers of deepest crimson; red, white and blue bunting, in graceful folds, draped the galleries; the stage was carpeted; on the right stood an evergreen urn filled with diplomas, for the class; on the face of the urn were the figures '81, composed of field daisies; near by was a beautiful golden harp made of buttercups and yellow lilies; on the left, stood a tall evergreen easel, bearing on its front an anchor wrought in white and purple flowers. On the wall in the rear of the platform was a horse-shoe of evergreen, enclosing the letters V. A. D. E., horizontally arranged, being the initials of the class motto and also forming the latin word *Vale.* To the left were the figures '87; on the right, '81. In front of the stage was a piano, profusely adorned with baskets of beautiful flowers, around which were grouped the members of the High School Orchestra. On the stage itself were seated the fair graduates, and also the Principal and his assistants, the members of the school committee and other dignitaries, together with a number of our prominent citizens, among whom we observed His Honor the Mayor.

After a fervent prayer, by Dr. Rev. G. W. Field, the exercises opened with a musical selection very skillfully performed by the High School Orchestra. This organization is deserving the highest praise; it is composed of boys, some of them quite young, but they are nevertheless, capable of artistically rendering difficult compositions, as all who have heard them will testify. The orchestra is composed as follows: John H. Davis, piano; L. G. Paine, first violin; Geo. E. Boyd, Will L. Eaton and John M. Hastings, each second violin; Dan. Goodenough, first flute; Ralph K. Jones, second flute; Arthur H. Boardman, piccolo; Edward Adams, cornet, Leslie Cutter, cello; Chas. E. Hellier, double bass.

The salutatory and the reading of essays followed, as per programme printed below: The essayists gave evidence of a thorough study of their themes and evinced good scholarship, reflecting much credit upon the Principal and his assistants, for whom the class manifested much affection and esteem. From the Class History, a well-written and witty production, we learn that of the class of sixteen, in which there is but one boy, the oldest is 19 years and 8 months; the youngest, 16 years; 3 are Baptists; 5 Congregationalists, 2 Catholics, 2 Methodists and 2 Unitarians.

The names of the graduates are as follows: Carrie B. Ames, Alice Buckman, Sadie N. Brown, Florence M. Cummings, Lottie M. Davenport, Harry W. Gray, Grace P. Hersey, Lottie J. Jordan, Katie F. Lyons, Mary McSkimmon, Mildred E. Patten, Ella M. Robinson, Alice M. Schwartz, Hattie B. Smart, Nellie E. Sullivan, Carrie L. Weatherbee.

Prof. Jordan briefly introduced Dr. Simmons, Chairman of the School Committee, who made an appropriate address to the class, after which he distributed the diplomas to the graduates.

PARTING HYMN.

The hour of parting now is come,
With classmates we shall meet no more;
But memory's tablet still will keep
The faces bright, in days of yore.

May efforts of our teachers kind,
To each true knowledge to impart,
Be cherished still, as years roll on,
And ever bless with joy each heart.

Oh! may the lessons of our youth
Be Wisdom's crown, in future years,
Which e'er shall rest upon the brow,
In highest hopes and darkest fears.

Though clouds of sorrow dim our hopes
As o'er life's dreary sea we roam,
Let us each strive to do our best,
Trusting that God will lead us Home.

Kind friends, dear teachers, fare you well!
May we, when all life's toil is o'er,
Together meet around His throne
In Heaven, to say "farewell" no more.

The benediction was pronounced by Rev. R. L. Howard.

ANOTHER MILL GONE.

Steam Saw-mill at Greenville Burned.

About four o'clock Saturday morning the new steam saw-mill at Greenville, near Moosehead Lake, was discovered to be on fire, and in a short time, as we are informed, was totally destroyed. It is thought that the fire must have been smouldering through the night, as from the moment of its discovery the flames burst out with uncontrollable fury and spread with great rapidity. The mill, as stated above, was quite new, and was owned by Mr. Henry Sawyer. The loss is not ascertained. There was no insurance.

Street Sprinkling.

To the Editor of the Whig & Courier:

On Saturday, it was reported that the Water Board was about to impose so heavier a tax on the proprietor of the street sprinklers as to render it impossible for him to continue laying the dust without levying heavy assessments on individuals. I hope the report is unfounded, and I cannot but think that, on a careful review of the subject, the Board will regard the wishes of the public sufficiently to grant all reasonable aid in this most necessary enterprise.

Since the introduction of water into our city, it has been possible to have our thoroughfares more generally watered than before, but if the proprietor of watering carts has to resort to old methods the tax will be so great on the few liberal persons who dislike dirt that the system will have to be abandoned. At present, funds for sprinkling are raised by individual subscription, and the tax is a heavy one on a few persons for the benefit of all. I know of one firm that contributes twenty-five dollars towards sprinkling a street on which they neither live nor have their place of business, and others similarly situated who pay with equal liberality.

I cannot think there is a fortune in the sprinkling business, even if the city should contribute the water *gratis* for its share of the expense, and I do think the health and comfort of citizens should be taken into consideration, and that those who bear the chief burden by putting their hands in their pockets should not be pressed harder.

Meeting of the Contributors of the "Maine Farmers' Almanac."

On Friday, June 17, at 11 o'clock A. M., there met in the parlors of the Hallowell House, Hallowell, the contributors, publishers and ex-publishers of that old and time-honored publication, the "Maine Farmers' Almanac." This is the second reception given the contributors by the publishers, and at this meeting steps were taken to effect a permanent organization. Not a large number were present, the greater part being farmers we should judge, and each individual was invariably addressed by his *nom de plume*. It would be rather out of place even in this connection to comment on the fine appearance or intelligent countenances of the contributors; for from childhood we all have been led almost to revere their work, and no better compliment can be paid them than to refer to the fact that their productions have stood the test of more than half a century.

On assembling, the meeting was called to order by "Calebas," and A. E. Faught in due form, installed as chairman. An address of welcome was then tendered by "Eureka," and omitting the roll-call, because of the small number present, "R. D. W." proceeded with his able and highly interesting historical address. The poem was read by "Noemus," "Hurrah" being absent, after which some very interesting letters from absent members were read.

Remarks then followed, from "Noemus," "Calebas," J. C. Friend, A. E. Faught and Major Rowell of Hallowell. After dinner, which was heartily enjoyed, and lasted for about an hour, the company again assembled in the parlor to transact what business might be necessary to effect their permanent organization. J. C. Friend, "Silent," and "Hurrah" were constituted a committee to draft a constitution and by-laws, and to perform such other duties as might devolve upon an executive committee.

Hon. Chas. E. Nash, the present publisher, in brief but very appropriate remarks, then expressed his enjoyment of the occasion, stating that it would be a great pleasure to meet them each year either at Augusta or Hallowell as they might choose. "Silent" then read the valedictory and after designating the second Wednesday in October, '82, as the date of their next meeting, the company adjourned. May the organization prove a source of joy and profit to all concerned.—*Journal.*

RESCUED FROM DEATH.

William J. Coughlin of Somerville, Mass., says: In the fall of 1876 I was taken with BLEEDING OF THE LUNGS followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around, that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALSAM FOR THE LUNGS, I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past.

"I write this hoping every one afflicted with Diseased Lungs will take DR. WILLIAM HALL'S BALSAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness. dlt&w no3 mar12

The virtues of roots, barks and herbs were never better illustrated as healing remedies for the stomach, liver, and, in fact, the whole human frame, than those combined in Dr. Graves' Blood Purifier. It contains no mineral poisons, nothing but the strength of these great remedial agents given as a natural cure, and the facility with which the Blood Purifier relieves the system of Indigestion, Biliousness, Liver Complaint, Humor, Scrofula, Jaundice, and the great variety of ailments proceeding from the debility of the stomach and liver, speak volumes of praise for it. The Blood Purifier will give you an appetite, give you renewed strength and vigor. Price $1.00.

For a Cough, Cold, Sore Throat, Hoarseness, &c., use Dr. Graves' Balsam of Wild Cherry and Tar. Price, 10 cts. and 50 cts. per bottle.

Improved Family Cathartic Pills, made by Dr. Graves, cure Headache, Constipation, &c. Price, 25 cts. per box. Dr. Graves' remedies are for sale by Bangor Druggists.

Messrs. Anthony, Poor & Oliphant, Bankers, 45 Wall street, New York, have brought out for popular subscription, the Toledo, Ann Arbor and Grand Trunk Railway first mortgage 6 per cent. forty year gold bonds. The total issue is $1,260,000 interest payable January and July and principal in 1921, and is only at the rate of $15,000 per mile. The bonds not only cover the old Toledo and Ann Arbor line, 46 miles in length, but also the extension to Pontiac, Mich., 38 miles further, to a connection with the Grand Trunk Railway. This extension is now finished, except track laying, which is progressing rapidly and will be completed on or before September 1st, giving the Grand Trunk an outlet to Toledo and the South, from which it has been hitherto shut out, and to the Jackson, Lansing and Saginaw road, a route much shorter via Toledo, to a market for lumber, than the line now used. It will be a through line for the Grand Trunk Road for the important traffic reached at Toledo. The Ann Arbor line is now used by the Wabash, in connection with the Detroit and Butler Branch, for their large traffic between Toledo and Detroit, and as the whole of the Wabash freight heretofore pooled at Toledo between the Lake Shore and Canada Southern Railways will shortly be delivered over the Great Western Railway, it will be seen that the whole eastern bound freight of the Wabash from Toledo will pass over a portion of the Ann Arbor line. For the three months ending with May, the net earnings of the Division between Toledo and Ann Arbor were $18,675, or at a rate (on 46 miles alone) sufficient to pay the interest on the total issue. Subscriptions for the bonds will be received at 102½ and accrued interest, reserving the right to advance the price without notice.

WHY WEAR PLASTERS?

They may relieve, but they can't cure that lame back for the kidneys are the trouble, and you want a remedy to act directly on their secretions, to purify and restore their healthy condition. Kidney-Wort has that specific action—and at the same time it regulates the bowels perfectly. Don't wait to get sick, but get a package to-day, and cure yourself. Either liquid or dry for sale at the druggists.—*Binghamton Republican.*

ONE MOMENT, PLEASE.

When winter is passing into summer, and summer into winter again, your health should be especially looked to. The humors which have accumulated in your blood should be cleansed away, and your system toned up to guard against bilious fever, or other sickness peculiar to the change of season. Dr. David Kennedy's "Favorite Remedy" will do this for you to perfection. Get a bottle now and begin using it at once. A long fit of sickness and a long doctor's bill may be the penalty of neglect. If your druggist hasn't it, write to the doctor at Rondout, N. Y. Price $1.00. d&w2w jun10

"WOMEN NEVER THINK."

If the crabbed old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their families well, and would note their sagacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, at a mere nominal expense, he would be forced to acknowledge that such sentiments are baseless and false.—*Picayune.*

WOMEN WHO SUFFER.

The greatest sufferers in the world are women; their delicate organization being peculiarly susceptible to derangement and disease. Among those who have been cured by Dr. David Kennedy's "Favorite Remedy" we will name Mrs. S. A. McIlwain of Fergusonville, N. Y., Mrs. John F. Brinkerhoff, Highland, N. Y., Mrs. Edward Meyers, of Rondout, N. Y. and many others. "Favorite Remedy" purifies the blood, invigorates the system, and fortifies it against the disease. All druggists have it. d&w2w jun13

"I DON'T WANT THAT STUFF,"

Is what a lady of Boston said to her husband when he brought home some medicine to cure her of sick headache and neuralgia which had made her miserable for fourteen years. At the first attack thereafter, it was administered to her with such good results that she continued its use until cured, and was so enthusiastic in its praise, that she induced twenty-two of the best families in her circle to adopt it as their regular family medicine. That "stuff" is Hop Bitters.—*Standard.*

By the timely use of Fellows' Compound Syrup of Hypophosphites, the Nerves regain their vigor, and the Brain becomes clear and powerful. Indigestion and habitual Costiveness almost always arise from weakness of the nerves and muscles of the stomach and bowels. In such cases, Fellows' Syrup of Hypophosphites has proved itself of the greatest service by inducing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicines. d&w1w june16

In the District Court of the United States for the District of Maine,

In the matter of WILLIAM K. LANCEY, Bankrupt. In Bankruptcy.

At Portland in said District, on the 25th day of May, A. D. 1881. Before Hon. Edward Fox, Judge of said District Court, in Bankruptcy, District of Maine, ss.

Upon the application of Levi Greenleaf, of Pittsfield in the County of Somerset and State of Maine, Assignee of William K. Lancey, asking leave to execute a receipt in full of all demands to date against Franklin Smith, and a discharge to one C. N. Gower of all liability under certain agreements given by him to said Lancey relative to certain execution lands, so far as said Smith is bound to protect said Gower, and a receipt in full to date of all claims against Smith & Reader, said Smith being desirous of having a complete and irrevocable bar to all claims on the part of said estate, and it seeming just that he should have the same, as from a careful examination it appears at least that nothing is due from him and by an amicable settlement all litigation and consequent expense to said estate may be avoided: *It is ordered*, that notice of this application be given to all parties interested to appear at the June Term of this Court, to be held at Bangor on the 28th day of June A. D. 1881, at ten o'clock in the forenoon, by publication twice a week in the Bangor Daily Whig and Courier and Daily Kennebec Journal.

LETTER CARRIERS.

All letters are delivered free by carriers when addressed to street and number. People should inform their correspondents of above and have their letters addressed accordingly.

Persons leaving their address at the General Delivery can also have their letters sent, but it is much more convenient to have the street and number on, and they will be delivered earlier than if the same is put on at the office. Carriers make two deliveries daily, the first trip supplying the extremes of their routes.

Collections are made morning and evening in season for important mails.

Holidays the Carrier's Window will be open for the delivery of letters from 8 to 9½ A. M., and from 7½ to 8½ P. M. Sundays from 8½ to 9½ A. M.

Any irregularities in the Carriers' department should be reported to the office.

ENVELOPES.

No additional charge will be made for printing the name and request to return, across the left hand upper corner of the envelopes furnished by the Post Office Department, (samples of which may be seen at the Cashier's window,) when ordered in lots of not less than 500.

A request for the return of a letter to the writer, if unclaimed within thirty days, or less, written or printed, with the writer's name, post office and State, across the left end of the envelope, on the face side, will be complied with.

The public are earnestly recommended to procure Stamped envelopes with printed return request, as the expense is less, and letters thus endorsed, if not delivered to the person addressed, are returned to the writer free of charge.

First class envelopes of above furnished at $[illegible] per thousand.

Stamps cut from Stamped Envelopes cannot be used to prepay postage. The use of such Stamps is punishable by a fine of fifty dollars.

Stamped Envelopes, spoiled in directing, are redeemed at this office.

Fellows' Hypophosphites.

The Promoter and Perfector of Assimilation.

The Reformer and Vitalizer of the Blood.

The Producer and Invigorator of Nerve and Muscle.

The Builder and Supporter of Brain Power.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOSPHITES

Is composed of ingredients identical with those which constitute Healthy Blood, Muscle and Nerve, and Brain Substance, whilst Life itself is directly dependent upon some of them.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtaxed or irregular habits, Bronchitis, Congestion of the Lungs.

It cures Asthma, Neuralgia, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

Do not be deceived by remedies bearing a similar name, no other preparation is a substitute for this under any circumstances.

Dear Sir —Having suffered intensely for four years with disease of the Kidneys, after having during that time tried various medicines without obtaining relief, I was induced to try a bottle of your ELIXIR OF LIFE ROOT, and it affords me pleasure to say that one bottle of it completely cured me. KIDNEY-WORT

THE RED MASK.

A Mocking Demon Stalking Abroad. All Danger from it averted by a Skillful Physician.

There are for many reasons, few diseases more to be dreaded than Erysipelas, and it has, not inaptly, been termed "St. Anthony's Fire." There is no disease which so completely deforms and disfigures the visage of the patient, and it may fairly be compared to a red mask thrown by a mocking demon over the human face. It is almost as dangerous as it is repulsive. Arising from a variety of causes, running its course with pain—it often ends suddenly in death. The old treatment consisted of blood letting and the use of strong drastic purgatives. The substance of the enlightened modern treatment is all contained in Dr. Kennedy's "Favorite Remedy." Use this, and you have taken the essential total of all the best physicians in the land could prescribe for Erysipelas. A case in point, Mr. S. B. Carpenter, of Granville, N. Y., writes that he had for some time been afflicted with this disease in both legs, and has regained his health by the sole use of "Favorite Remedy." Other cases might be cited did space permit. "Favorite Remedy" is also sure in its action in all other disorders of the Blood. Ask your druggist for it, or address the Proprietor, Dr. David Kennedy, Rondout, New York.
